

appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before January 23, 2003.

ADDRESSES: Send comments, referencing EPA ICR No. 1395.05 and OMB Control No. 2050-0092, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at (202) 566-1672, by e-Mail at auby.susan@epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1395.05. For technical questions about the ICR, contact Sicy Jacob at EPA by phone at (202) 564-8019, by e-mail at jacob.sicy@epa.gov.

SUPPLEMENTARY INFORMATION: Title: Emergency Planning and Release Notification Requirements under Emergency Planning and Community Right-to-Know Act Sections 302, 303, and 304, OMB Control Number 2050-0092, EPA ICR Number 1395.05, expiring January 31, 2003. This is a request for extension of a currently approved collection.

Abstract: EPCRA established broad emergency planning and facility reporting requirements. Section 302 (40 CFR 355.30) requires facilities where an extremely hazardous substances (EHS) is present in an amount at or in excess of the threshold planning quantity (TPQ) to notify the State Emergency Response Commission (SERC) by May 17, 1987. This activity has been completed; the section 302 costs and burden hours for this ICR, therefore, reflect only the estimate of cost and burden incurred by newly regulated facilities during years 2000 to 2002. Section 303 (40 CFR 355.300) requires local emergency planning committees (LEPCs) to prepare local emergency plans. Facilities subject to section 302 are required to provide information for the development and implementation of these local emergency plans. Section 304 (40 CFR 355.40) requires facilities to report to SERCs and LEPCs releases of EHSs and hazardous substances in excess of reportable quantities established by EPA. In addition, these facilities must provide written follow-up information on the release, its impacts, and any actions taken in

response to the release. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 12, 2002 (67 FR 52481); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average for emergency planning under 40 CFR 355.30 is 16.15 hours for new and newly regulated facilities and 1.50 hours for existing facilities. For a limited number of existing facilities, there may be a burden to inform the LEPC of any changes at a facility that may affect emergency planning (1.50 hours). The average reporting burden for facilities reporting releases under 40 CFR 355.40 is estimated to average approximately 5 hours per release, including the time for determining if the release is a reportable quantity, notifying the LEPC and SERC, or the 911 operator, and developing and submitting a written follow-up notice. There are no recordkeeping requirements for facilities under EPCRA sections 302-304.

The average burden for emergency planning activities under 40 CFR 300.215 is 21 hours per plan for LEPCs, 16 hours per plan for SERCs. Each SERC and LEPC is also estimated to incur an annual recordkeeping burden of 10 hours.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Facilities where extremely hazardous substances are present, LEPCs and SERCs.

Estimated Number of Respondents: 82,260.

Frequency of Response: Section 302 respondents will comply with requirements once unless new information becomes available. Section 303 respondents will comply with requirements as requested by LEPCs; LEPCs may have to update their local emergency response plans as new facilities or other information such as new chemicals present at or above a TPQ. Section 304 respondents will comply when there is a release of an EHS above the RQ.

Estimated Total Annual Hour Burden: 212,460 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$15,160.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1395.05 and OMB Control No. 2050-0092 in any correspondence.

Dated: December 10, 2002.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities; Submission of EPA ICR No. 0649.08 (OMB No. 2060-0106) to OMB for Review and Approval; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS for Metal Furniture Coating—subpart EE, OMB Control No. 2060-0106, EPA ICR No. 0649.08, expiration date 1/31/2003) The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before January 23, 2003.

ADDRESSES: Follow the detailed instructions in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT:

Leonard Lazarus, Compliance and Monitoring Programs Division, Office of Enforcement and Compliance Assurance, 2223-A, (202) 564-6369, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-6369; fax number: (202) 564-0500; e-mail address: lazarus.leonard@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 20, 2002 (67 FR 41981), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2002-0008, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center is (202) 566-1514. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice, and according to the following detailed instructions: (1) Submit your comments to EPA online using EDOCKET (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mailcode: 2201T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) Mail your comments to OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives

them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS for Metal Furniture Coating—subpart EE (OMB Control No. 2060-0106, EPA ICR No. 0649.08). This is a request to renew an existing approved collection that is scheduled to expire on January 31, 2003. Under the OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The New Source Performance Standards for Metal Furniture Coating—subpart EE were proposed on November 28, 1980 and promulgated on October 29, 1982. These standards apply to each metal furniture surface coating operation in which organic coatings are applied (greater than 3,842 liters of coating per year), commencing construction, modification or reconstruction after November 28, 1980. Approximately three hundred ninety-seven (397) sources are currently subject to the regulation, and it is estimated that an additional thirty (30) sources per year will become subject to the regulation in the next three years while an equal number will go off-line during this time period. This information is being collected to assure compliance with 40 CFR part 60, subpart EE.

Owners or operators of the affected facilities described must make initial reports when a source becomes subject, conduct and report on a performance test, demonstrate and report on continuous monitor performance, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility. Semiannual reports of excess emissions are required. These notifications, reports, and records are essential in determining compliance;

and are required, in general, of all sources subject to NSPS.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least 2 years following the date of such measurements, maintenance reports, and records. The estimated total cost of this ICR will be \$836,540 per year over the next three years. All reports are sent to the delegated State or Local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 71 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of metal furniture coating facilities.

Estimated Number of Respondents: 397.

Frequency of Response: semiannual for all, every other year for excess emission report.

Estimated Total Annual Hour Burden: 73,181 hours.

Estimated Total Annual Cost: \$5,016,640, includes \$4,180,100 labor costs and \$836,540 non-labor costs.

Changes in the Estimates: There is a decrease of 27,889 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to a correction in the number of facilities based on a review of records incorporated into EPA's Integrated Data

for Enforcement Analysis (IDEA) database.

Dated: December 10, 2002.

Oscar Morales,

Director, Collection Strategies Division.

Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS Grain Elevators—subpart DD (OMB Control No. 2060-0082; EPA ICR No. 1130.07). This is a request to renew a collection that is scheduled to

expire on January 31, 2003. Under the Paperwork Reduction Act, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR 60.300, *et seq.*, subpart DD, New Source Performance Standards for Grain Elevators. This information notifies EPA when a source becomes subject to the regulations, informs the Agency if a source is in compliance.

In the Administrator's judgment, particulate matter emissions from grain elevators cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, NSPS were promulgated for this source category, as required under section 111 of the Clean Air Act.

Controlling emissions of particulate matter from grain elevators requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Particulate emissions from grain elevators are the result of grain drying and grain handling operations, including loading and unloading. These standards rely on the proper operation of particulate control devices such as baghouses and equipment such as shed doors and spouts designed to reduce particulate emission during grain unloading and loading.

Owners or operators of the affected facilities subject to NSPS subpart DD must make the following one-time-only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility that may increase the rate of emission of the regulated pollutant; notification of the date of the initial performance test; and the results of the initial performance test, including information necessary to determine the conditions of the performance test and performance test measurements and results, including particulate matter concentration and opacity.

Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, as well as the nature and cause of the malfunction (if known) and corrective measures taken. These notifications, reports and records are required, in general, of all sources subject to NSPS. Without such information, enforcement personnel
